OBJECTIVES

As a young man coming from a previously disadvantaged community, I strive to be part of a working environment that will boost my skill as a software developer and help me grow as a person/professional. With problem solving, attention to detail and good communication skills as some of the qualities I have, I plan to utilise them to add value to and learn a lot from Pepko IT. The above links are some of the works I have done recently, please do have a look.
